INCREASE YOUR SECURE STORAGE SPACE

WHY FIT A ROLLER LID?

Secure and Organized Storage. A roller lid turns your truck bed into a secure, organized storage space for tools, gear, or equipment. Its rolling mechanism offers quick access, while durable materials ensure long-lasting performance, perfect for work or outdoor adventures.

Enhanced Security and Protection. A roller lid ensures peace of mind by protecting your cargo from theft and harsh weather. With features like central locking and tailgate compatibility, Aeroklas Roller Lids prevent unauthorized access while keeping your belongings safe from rain, snow, and UV rays.

Stylish and Functional Upgrade. A roller lid enhances your truck's look and efficiency with its sleek design, improving aesthetics and potentially reducing drag for better fuel efficiency. Choose between the manual M-Roller Lid or the electric E-Roller Lid for convenience that suits your lifestyle.

ROLLER LID

A Roller Lid is a simple way to add cargo protection and greater functionality to your ute.

The AEROKLAS Roller Lid keeps your belongings safe and secure, while it can be retracted to allow you to retain the same open air cargo storage capability as a regular tub. Featuring a black anodised aluminium body that's designed to be tough yet lightweight, the Aeroklas Roller Lid is a secure and stylish storage solution.

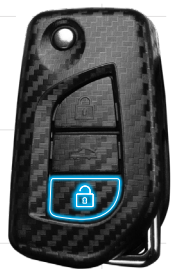

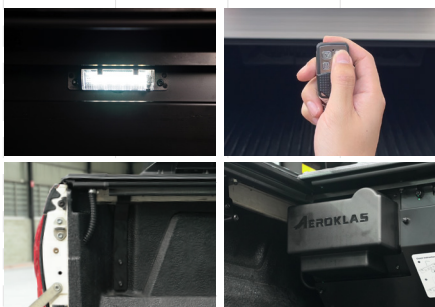

ELECTRIC

MANUAL

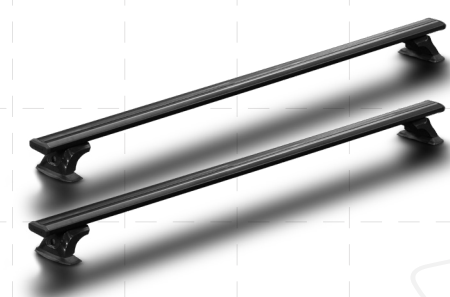

E-ROLLER LID

The AEROKLAS E-Roller Lid offers advanced functionality and style with durable black anodized aluminum, push-button or remote control operation, and integration with your vehicle's central locking. It features a non-drilled installation, jam protection, water drainage tubes, and a T-Slot system for accessory compatibility. An integrated LED light provides visibility, making it a secure and versatile solution for your truck bed.

REMOTE CONTROL

A remote control for effortless operation, allowing you to open, close, and stop the lid at any position with precision. Integrated with your vehicle's central locking, it enhances security and convenience, making truck bed access seamless and reliable.

CROSS BAR

Cross bars fully compatible with our roller lids, providing additional storage for items like bikes, kayaks, or camping gear without obstructing truck bed access. Designed for durability and versatility, these cross bars enhance your roller lid with increased cargo capacity, a sleek T-Slot system for accessories, and a stylish look, making your truck more functional and ready for any adventure or task.

M-ROLLER LID

A roller lid ensures peace of mind by protecting your cargo from theft and harsh weather. With features like central locking and tailgate compatibility, Aeroklas Roller Lids prevent unauthorized access while keeping your belongings safe from rain, snow, and UV rays.

The AEROKLAS M Roller Lid is a durable, lightweight aluminum truck bed cover, easy to operate with hidden lock slings and a nylon strap. Tested for 25,000 cycles, it features non-drilled installation, efficient water drainage, and compatibility with AEROKLAS accessories like Tailgate Lock, making it a secure and versatile solution for your truck.

Can bear a distributed load of up to 100 KG.

Easy to be installed on the vehicle

Water drainage up to 40 liters/minute

Compatible with various accessories

TO TRAVEL IS TO EVOLVE

WHY FIT A CANOPY?

Storage. Big and bulky cargo? With a Canopy equipped, it doesn't matter what you throw in the back. Canopies allow you to store more cargo with less hassle and you don't have to worry about securing gear in place or covering them when you hit the road.

Security. With fully lockable side and rear windows, Canopies keep your cargo and essentials safe and sound, and away from prying eyes, the minute you leave your vehicle unattended.

Protection. Blistering heat, gale force winds, monsoonal conditions with a canopy equipped, potential damage and inclement weather won't be a problem for your cargo! And when you head off-road, dirt, sand, water and anything else stays outside right where it belongs.

BUILT TO LAST

Crafted with a beautiful smooth finish, the robust outer shell is robotically painted to OEM standards and passes all OEM testing requirements for paint finishes. Backed by a market-leading 4-year warranty, the Aeroklas Stylish Canopy offers an attractive textured finish and features no external wiring or bracketry, while the canopy shells themselves are made from 100% recyclable ABS.

STYLISH

The Stylish Canopy is engineered with a dual-layer ABS construction that delivers twice the strength and durability using automotive-grade materials. Its canopy framework is seamlessly molded from ABS on both the interior and exterior, creating a continuous, gap-free structure that maximizes safety. In the event of a heavy impact or collision, the canopy is designed to recover its shape without shattering into dangerous, sharp fragments. Additionally, it is manufactured from environmentally friendly materials, making it a smart and sustainable choice for your vehicle.

Ideal for drivers who demand both style and safety, the Canopy stylish offers exceptional protection, durability, and a refined aesthetic that elevates your vehicle's overall appeal.

LIGHTWEIGHT AND STRONG

TYPES OF WINDOW

The window release button only works when the vehicle is unlocked.

Can bear a distributed load of up to 120 KG.

Turn on/off with remote control

CROSS BAR

Aeroklas Cross Bar is fully engineered to carry up to 70-80 kgs on the roof of all Aeroklas Canopies.

INNOVER CANOPY

Infuse your pick-up truck with extra storage security and functionality with the Aeroklas Innover Canopy.

The Aeroklas Innover Canopy is formed using Reaction Injection Molding (RIM), which gives you a stronger, more flexible canopy than traditional single shell ABS or fibreglass canopies. This process, which removes potential joins and weak areas from each canopy, infuses the Innover with exceptional impact resistance and the ability to reshape it after an impact.

Can bear a distributed load of up to 120 KG.

Turn on/off with remote control

DUAL-OPENING FOR EFFORTLESS CARGO ACCESS

WHY FIT DECK COVER?

Upgrade your pickup with the AEROKLAS Deck Cover, featuring a dual-opening system (45°) for effortless cargo access. Its tough lock system and 100% waterproof protection keep your belongings secure in any condition. The sleek, aerodynamic design enhances fuel efficiency, while premium surface options ensure a perfect match for your truck. Strong, stylish, and practical this is the ultimate deck cover for your pickup.

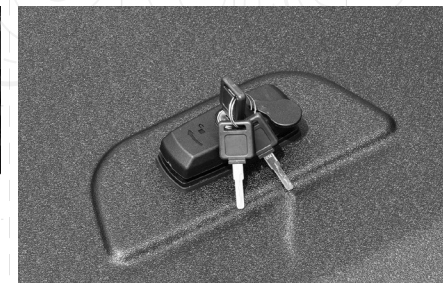

DECK COVER

A deck cover is a protective cover designed for the bed of a pickup truck, providing security, weather resistance, and improved aerodynamics. It shields cargo from rain, dust, and theft while maintaining easy access for loading and unloading. Available in manual or electric lift-up designs, deck covers enhance both the functionality and style of your truck. Designed for long-term durability and compatibility with various truck accessories, it provides a lightweight yet strong solution for truck owners seeking protection and convenience.

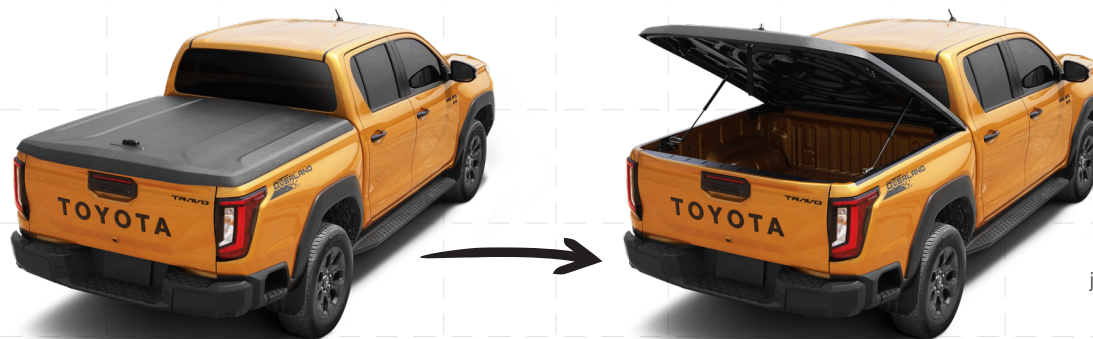

DECK COVER (SPEED)

The AEROKLAS Deck Cover Speed is a secure, waterproof, and manually operated truck bed cover designed for easy access and maximum protection. With a 45° opening angle, it allows for effortless loading and unloading while keeping cargo safe from rain, dust, and theft. Made with high-quality EL surface with black graining, it offers a durable, sleek, and premium look. Featuring a D-handle and U-lock system, along with a high-quality rubber seal, it ensures secure storage and complete weatherproofing. Its no-drill installation preserves the truck's body, while a convenient pull strap and built-in LED light enhance usability.

STRONG & FLEXIBLE

Built tough for all conditions with high-quality materials that resist impact and weather, while delivering smooth, flexible operation for easy access. A perfect balance of durability and convenience for every journey.

WATERPROOF 100%

Total protection in all weather conditions. Fully waterproof to keep rain, moisture, and dirt out, ensuring your cargo stays dry and secure on every journey. Designed with tight sealing edges to prevent leakage, even in heavy rain or wet environments.

CARGO DIVIDER

The AEROKLAS Cargo Divider is the perfect solution for keeping your truck bed organized and your belongings secure. Made from rust-resistant materials, it prevents items from sliding around, its adjustable design lets you customize the divider's position to suit your needs, while the locking knobs ensure stability. The AEROKLAS Cargo Divider is a must-have for anyone looking to maximize their truck's functionality and keep their cargo safe and tidy.

FEATURES

- Professional-grade cargo organization that elevates your vehicle's functionality
- Enhanced safety and peace of mind with secure load containment
- Rugged construction built to handle demanding, heavy-duty use
- Precision-fit design for quick, hassle-free installation
- Maximizes cargo efficiency for smarter, more productive transport
- Premium materials engineered for all-weather durability

SMART STORAGE ELEVATED PERFORMANCE

WHY FIT DRAWER SYSTEM?

Built for True Off-Road Performance Transform your cargo space into a tough, fully organized storage system ready for any mission Engineered to withstand heavy impact and extreme terrains with confidence Keeps your gear secure and in place, even on the roughest trails Quick and easy access means no wasted time when it matters most Stay ready to move through dirt, mud, or mountains without compromise

DRAWER SYSTEM

The AEROKLAS DRAWER SYSTEM is a smart storage solution designed to transform your vehicle's cargo space into a well-organized, secure, and highly functional area. Built to support both everyday use and all types of journeys, it allows you to neatly store tools, equipment, and personal belongings for easy access and maximum convenience. It also maximizes usable space, reduces clutter, and enhances a more professional and organized look within your vehicle. With added protection against movement and impact during transit, it ensures a smoother, more confident driving experience every time.

DRAWER SYSTEM

Aeroklas Drawers make organising and accessing cargo simple. Utilising a twin drawer, fixed top configuration and a rattle-free sealed runner system, Aeroklas Drawers are built for reliable performance whether you're on the job site, on the road or at camp.

Built around a galvanised steel chassis that's finished with glass-filled polypropylene top panels and wing kits, Aeroklas Drawers are lightweight yet strong. Each drawer has a load rating of 45kg while the drawer top has a load rating of 100kg both of which are finished in hard-wearing marine carpet. Heavy-duty stainless-steel latches with slam-shut functionality are integrated into a rugged black powder-coated fascia, giving Aeroklas Drawers a look to complement their utility.

Whether you are packing the car for work, hitting the road for a week away or touring for months on end, cargo storage is an essential factor for all kinds of travel.

Aeroklas drawers makes it easier to find and pack away individual items, to set up camp at the end of the day and to spend less time looking for gear and more time on the road (or off it).

By kitting out your pickup truck with an Aeroklas Drawer System, you can instantly simplify how your cargo is stored, how easy it is to access and how well protected it is.

AEROKLAS DRAWERS ARE A ROBUST STORAGE SOLUTION FOR YOUR PICK-UP TRUCK - WHETHER YOU'RE ON THE JOB SITE, ON THE ROAD OR AT CAMP

NO SPACE WASTED

Removable wing kits provide easy lift-up access to additional storage

FITS LIKE A GLOVE
